THE POWER OF DRUMMING

With over 25 years in the industry, our love of the djembe continues to drive us to be as dynamic and creative as the music itself.

We are Australia's largest West African music provider, creating and importing 99% of our range while ensuring the quality and affordability of our products. We train facilitators, run tours to West Africa and Bali, lead NZ & Victorian retreats, facilitate school workshops, team-building sessions, parties, weddings, festivals and more on a daily basis.

Our huge network of African and home-grown talent spans the country. We love what we do and we pride ourselves on staying fresh and innovative.

WHY DRUMMING WORKS

African Drumming is accessible and inclusive: People of all ages, backgrounds and abilities can learn to drum quickly. Basic playing skills can be learnt in a matter of minutes and the music can be easily adapted to any group, being as simple or as complex as you like:

- Drumming exercises the brain and the body, stimulating physical and neurologic coordination.
- Encourages listening skills, concentration, and communication.
- Develops teamwork abilities including confidence, trust, and leadership.
- Promotes multicultural awareness.
- Nurtures improvisation and creativity.
- Provides therapeutic benefits including mindfulness and stress reduction.

WHAT OUR CLIENTS SAY

"They were SO fabulous... their performances were great, their drumming was amazing and they just had the kids so engaged. Our kids were smiling from ear to ear, and absolutely loved it."

"The drumming brought a strong sense of connection and joy across the group and was a highlight for many participants. We consistently value the professionalism, warmth, and reliability you bring as a long-standing and trusted supplier."

"It was fantastic! The children were engaged in the activities very energetically. It was also a great introduction of African culture. Thank you so very much."

OUR SESSIONS

ABOUT OUR SESSIONS

African drumming is both a feel-good activity and a learning tool. Students walk away feeling energised with a sense of creativity while being part of a community. Group drumming is both an individual experience of self expression and a communal experience of achievement through group harmony.

SINGLE SESSIONS

Our single sessions offer drumming, dancing and singing, though we can easily adapt to suit your wishes. All of our facilitators are experienced and unique performers. At the end of the session students have the opportunity to ask the facilitator about their background, culture, music and West Africa.

POPULAR FORMATS

- Single workshops
- Half day series (3 x 50min sessions)
- Full day series (6 x 50min sessions)
- High energy African concert
- 4 week to full term Programmes
- Advanced classes for music students
- Fetes and cultural days
- Staff sessions

EXTENDED PROGRAMMES

Maximise learning outcomes through a four-week to full-term programme aligned with the Australian Curriculum. Suitable for all ages and abilities, students develop ensemble skills through focused practice in technique and dexterity, working towards a student concert. Using a broad range of instruments, students experience meaningful group learning and finish the programme with a strong sense of achievement.

DRUM MAKING WORKSHOP

A rewarding, hands-on experience for students of all ages that explores the cultural background of authentic instruments. Students finish the workshop with their own handmade drum. We provide all materials and can tailor workshops to run over part days, full days, or longer. Our djembes are crafted from sustainable materials, with 5% of each drum supporting the East Java Plant a Tree Program in Indonesia.

MENTAL HEALTH

The body of research and quantifiable data has boomed in the last 20 years: Drumming has distinctly therapeutic effects. It exercises the brain by stimulating cognitive functions like perception, attention and memory, while group drumming especially reduces anxiety, depression and loneliness.

MINDFULNESS & WELLBEING SESSIONS

African Drumming's Mindfulness and Wellbeing sessions focus on reconnecting through team building, meditation, singing and storytelling. Our activities will relieve stress, focus the mind and encourage cooperation and teamwork in an effort to rebuild confidence and creativity.

REGIONAL TOURS

Based in a remote location? No problem! Our network of performers extends almost everywhere. Form a collective or ask us to create a local tour, and we can reduce associated travel costs to bring the magic of West African music to you.

ADDITIONAL PERFORMANCE / WORKSHOP OPTIONS

- Lunch time assembly extravaganza
- African melodics with strings and percussion
- Body percussion
- African dance (with or without drumming)
- Indigenous workshops

STAFF TEAM-BUILDING

African Drumming will unite your group and have them drumming in harmony together in 5 minutes flat. The ensemble nature of African drumming is synergy in action; a live metaphor for the principles of teamwork, leadership and communication needed for groups to meet their potential. Add a team-builder to student sessions and we'll give you 20% off your staff session.

ALL ABILITIES

We have extensive experience in working with people of all abilities. Inclusion, interaction, positivity and fun are the key aims!

TESTIMONIALS

"It was a great incursion. Teachers and kids loved it... everyone was involved, not just observing. Your team was terrific and entertaining. One of my gorgeous, but more reserved students came up to me with a great big smile and said that was the best day she'd ever had."

"The workshops were excellent! The students really enjoyed them and loved the fact that they were active participants. A real sense of achievement developed as the students were able to see the formation of a whole piece with the other percussion instruments added as well as the dance."

"It was amazing to watch the faces of the students as they participated and were totally immersed in the experience. Some of our special needs students who sometimes struggle with new experiences absolutely loved joining in and felt successful in playing the drums with their peers."
